

WHERE FIRST JOBS BECOME LASTING CAREERS

VIRTUAL MANUFACTURING JOB MATCHING and EDUCATION COUNSELING

All High School Seniors interested in hands-on manufacturing jobs and education pathways are invited!

Boeing needs your hands-on skills to build airplanes! From automotive to wood-shop, welding to robotics, even home / DIY projects or hobbies - you have experiences that can lead to a great career and help pay for college!

Register now to meet one on one with a member of Boeing's Manufacturing Workforce team, using audio, webcam or just text chat. Choose an event that is closest to where you live.

Explore jobs you can apply for now AND learn how further training in Manufacturing Foundations, Precision Machining, Mechatronics / Industrial Automation, Composites or Aircraft Maintenance at local Community and Technical Colleges could be part of your next step.
